

MULTOTEC

Gravity Fed Slurry Distributors Orifice and Slot Type

Your Specialist in Distribution Solutions

Gravity Fed Slurry Distributors

Orifice Type

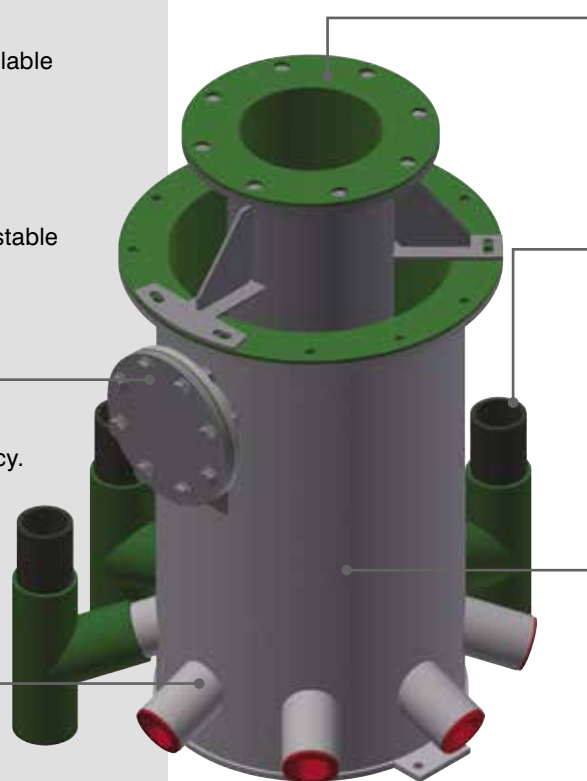

- Various distributors with up to 36 outlets available for accurate and efficient pulp distribution.
- Primary or secondary duty.
- Long lasting, highly abrasion resistant polyurethane protected working surfaces.
- Accurate distribution to all outlets through replaceable orifices, constant head and adjustable feed outlet.
- Modular routing of rigid off-take piping.

Overflow Outlet

- High level overflow with standard flange.
- Constant hydrostatic head improves efficiency.

Outlet

- Easily replaceable parallel throat orifice.
- Various diameters for different controlled flow rates.

Feed Pipe

- Centralised for unbiased distribution.
- Polyurethane lined.
- Velocity baffles available.

Off-takes and Distribution Piping

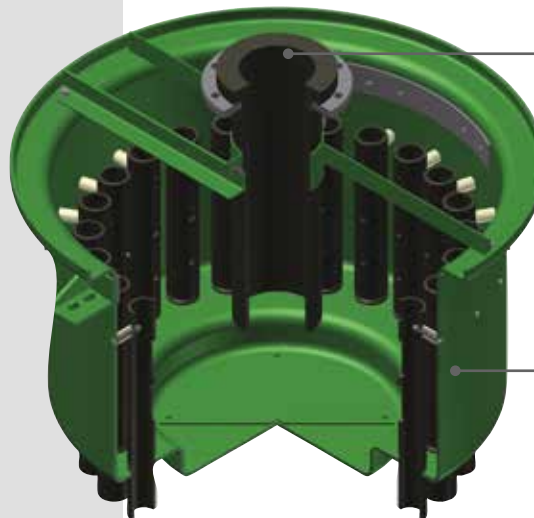

- Clampless long lasting polyurethane off -takes (with breather) and elbows.
- Standard HDPE rigid piping provides neat and uniform slurry routing.

Distributor Shell

- Long lasting polyurethane lined working surfaces.
- Galvanised corrosion resistant exterior.
- Low weight, low height, space saving design.

Slot Type

- Various distributors up to 36 outlets
- 50 mm, 75 mm or 90 mm diameter outlets
- Long lasting, wetted surfaces cast in high abrasion resistant polyurethane.
- Centralised HDPE feed pipe.
- Top or bottom fed.
- Distribution carried out via modular routing of rigid HDPE piping.

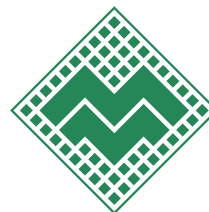

Feed Pipe

- Centralised for unbiased distribution.
- Manufactured from HDPE.
- Velocity breakers available.

Distributor Shell

- Manufactured from LDPE.
- Light weight, low height, space saving design.
- Corrosion resistant.
