Product and Pipe Launder Systems

Your Specialist in Process Equipment

Pipe Launder System

The popular Pipe Launder and Product Collection Launderers are now available in modular designs. These units can be successfully configured to any existing and new plant layout in the mineral processing industry.

Applications

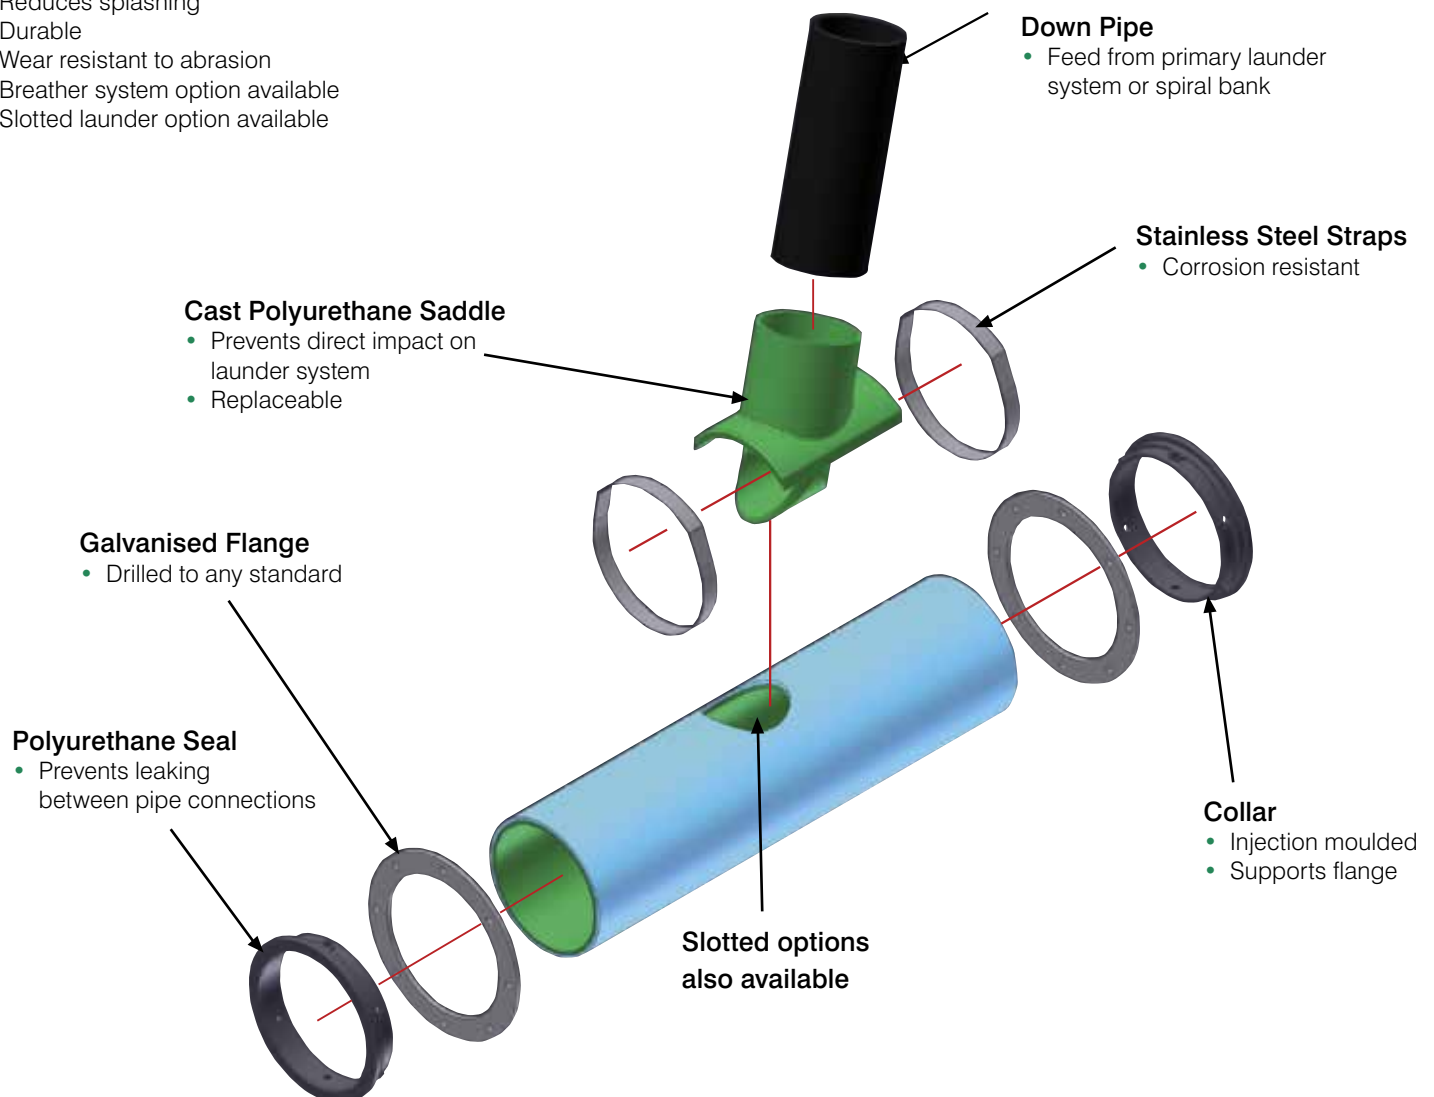

- Custom-developed Pipe Launder System
- Available in sizes of 200, 250, 315, 355 and 400 mm diameters
- Developed to cater for specific needs
- Fewer or no steel components used
- Easy to install
- Easy to transport and handle on site
- Fully manufactured in-house
- Quick lead times
- Can be used in a closed system to transfer slurry
- Single/double stage launder system options
- Large reference and client base

Features and benefits

- Manufactured from uPVC and lined with polyurethane lining throughout
- Lightweight when compared to rubber lined steel and HDPE piping
- Corrosion resistant
- Reduces splashing
- Durable
- Wear resistant to abrasion
- Breather system option available
- Slotted launder option available

uPVC Lined Pipe Launder

Product Collection Launder System

Applications

- Designs for banks of 2, 4, 6 and 8, and multiples thereof
- Designed to be used with Multotec spiral range
- Quick to install
- Corrosion resistant
- Mounted directly under spiral bank or in a subframe
- Separate launders per spiral product

Features and benefits

- Manufactured from polyurethane
- Fully lined with wear-resistant polyurethane against abrasion
- Stainless steel brackets for corrosive environments
- Lightweight
- Impact resistant
- Durable

Polyurethane Product Collection Launder

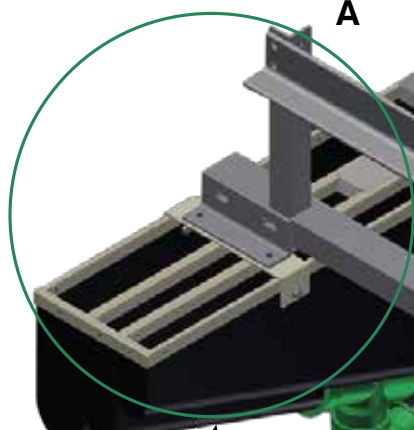

Hanging Brackets

- Aids installation below spiral banks

Stainless Steel Frame

- Corrosion resistant

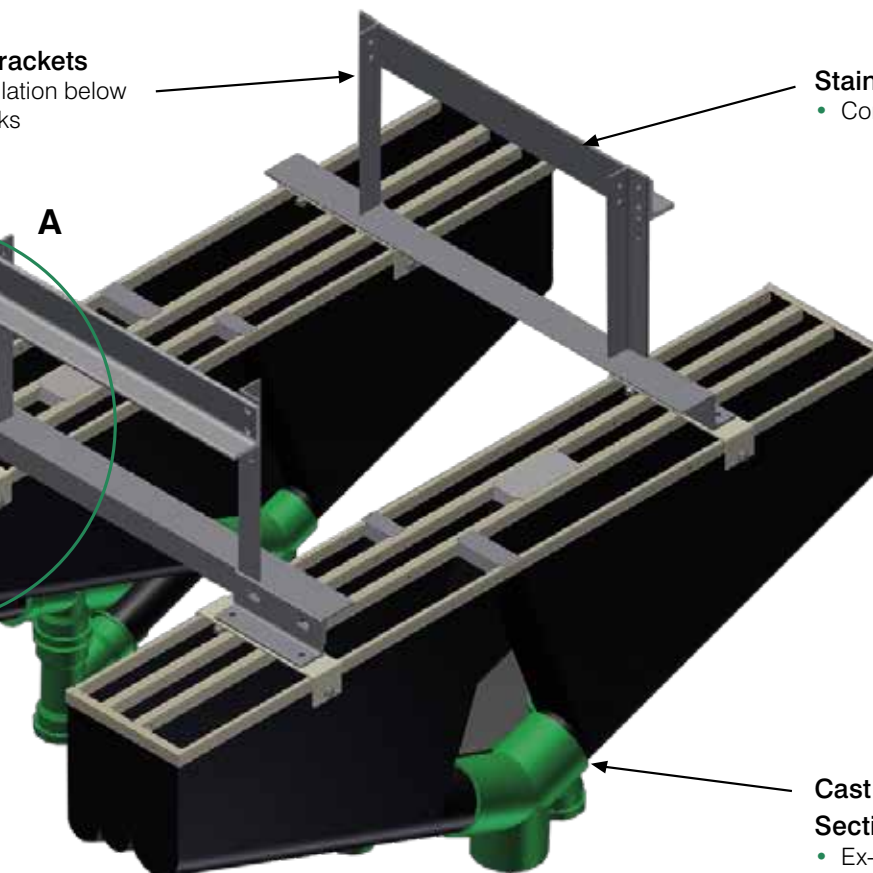

A

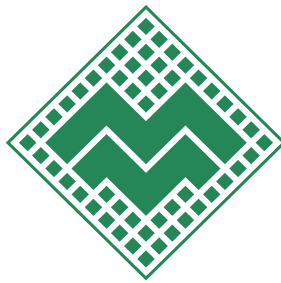

Separate Launder per Spiral Product

Cast Polyurethane Section

- Ex-stock item
