Installation of pins & sleeves

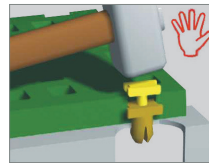

Locate sleeve in hole using hand

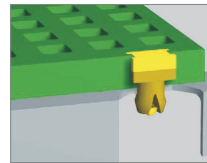

Use pin removal tool to ensure sleeve is securely seated

Insert pin into sleeve using hand

Drive pin into sleeve using a hammer

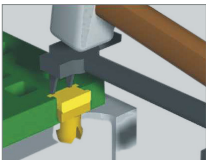

Ensure pin is fully driven into sleeve

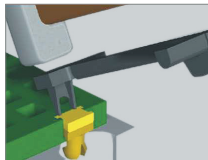

Recommended installation method:

Before locating the pins and sleeves, lubricate the items with water or soap water for easy installation.

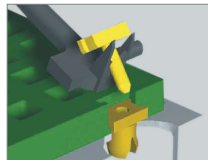

Removal of pins & sleeves

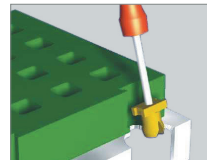

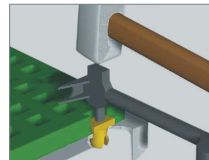

Drive the claw of the pin removal tool into the pin as shown

To secure the release of the pin, raise the tool and drive the pin removal tool into the pin once more

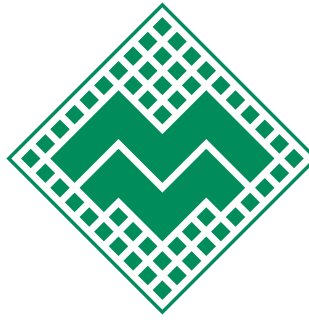

Move the tool away from your body to release the pin

For thicker panels a screw driver is to be used

Note:

To prevent injury when driving pins into sleeves, do not hold the pin with your hand when hitting the pin with a hammer.
