Rubber Screening Systems

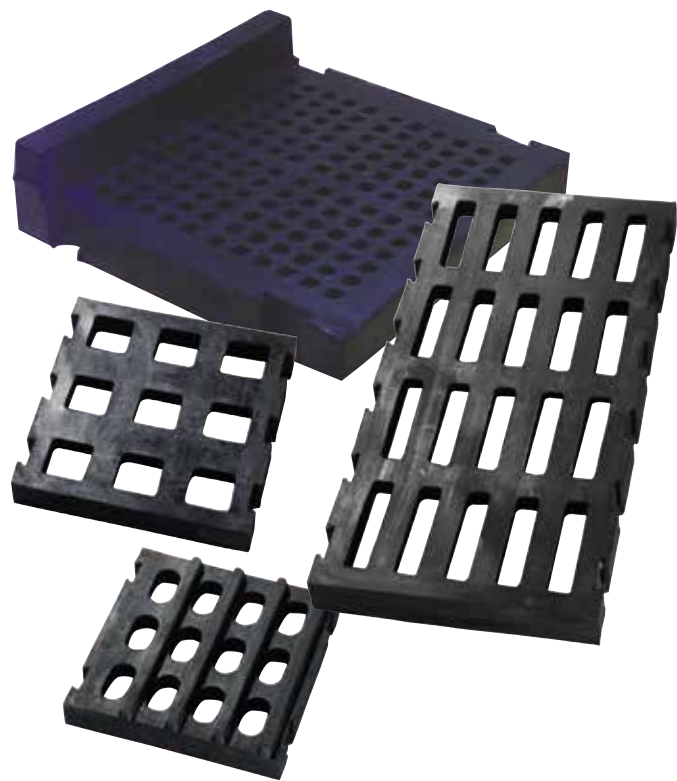

Your Specialist in Screening Media

Rubber Screening Systems

Modular Rubber Panels

- Wide range of apertures available for various applications.
- Heavy duty internal frame to absorb impact and provide support.
- Panel dimensions are 305 mm x 305 mm or 305 mm x 610 mm.
- Thicknesses from 30 mm to 90 mm with a wide range of self-relieving apertures.

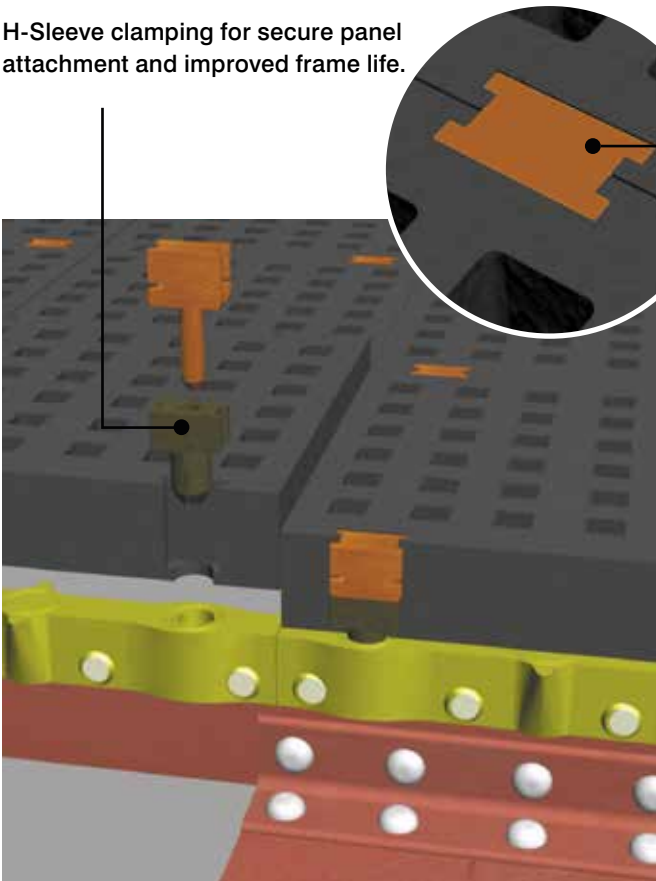

Custom designed internal frames for exceptionally heavy duty applications.

Modular Panels and H-Pin and H-Sleeve System

Suited to standard and special runner frames (Saddle Top, Pipe Top) and box frames.

H-Sleeve clamping for secure panel attachment and improved frame life.

H-Pin fastening panels for improved attachment.

Colour coded H-Pins and H-Sleeves to suit all thicknesses of modular panels.

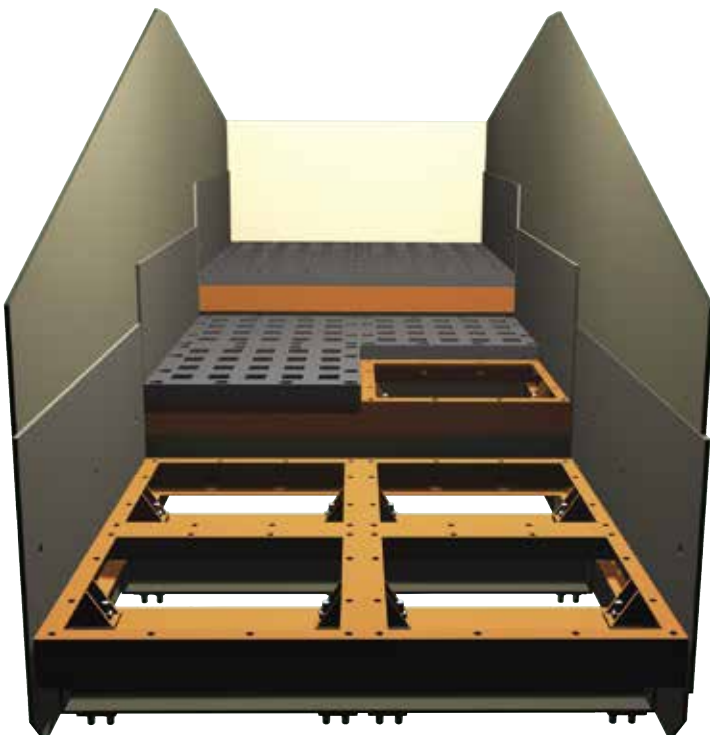

Knock Thru Pin

Flush with panel, no splashing of material, easy removal

Bolt-Down Rubber Panels

- Bolt-down rubber screen panels in a range of sizes and thicknesses.
- Apertures are all moulded with self relieving angles to minimise pegging.

- Plain self-supporting heavy duty bolt-down rubber screen panels for coarse applications.
- Screen frames designed to support panels on all four sides. Conversion from grizzly bars to rubber panels for certain applications.

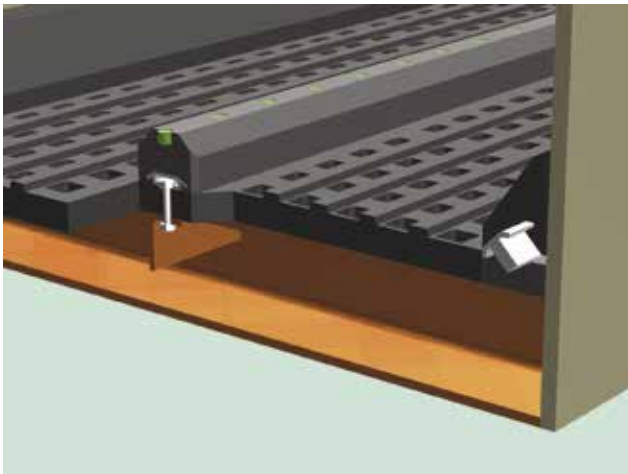

- Integral skid bars with centre clamp bars or bolt holes for direct bolting to screen frame.
- Conventional steel backed rubber side liners.

Rubber Trommel Panels

- Rubber trommel panels for coarse and heavy duty applications.
- Modular and large bolted or pinned panels to suit all sizes and types of trommel frames.
- Scrolls and weirbars to improve residence times and transport the oversize material.

- Plain bolt-down rubber panels with triangular side clamping bars.

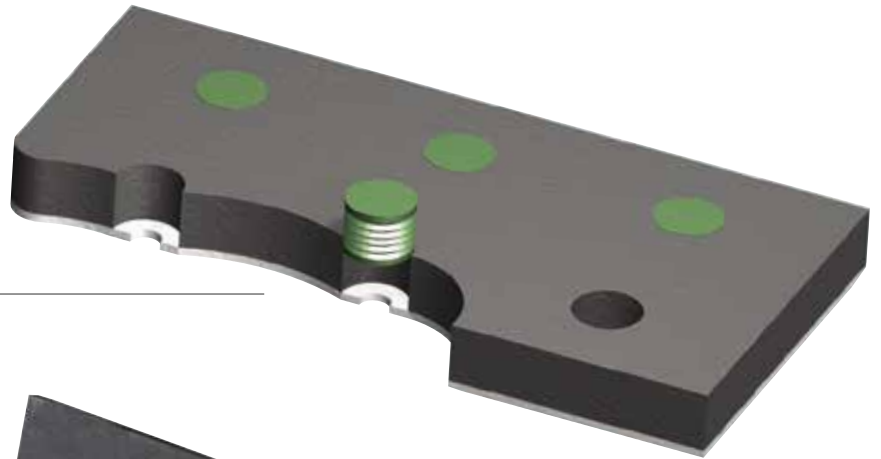

- Bolt-down rubber panels showing the bolting arrangements of the centre clamp bars and triangular side clamping bars.
- The bolts on the centre clamp bars are protected by rubber plugs.

Rubber Accessories

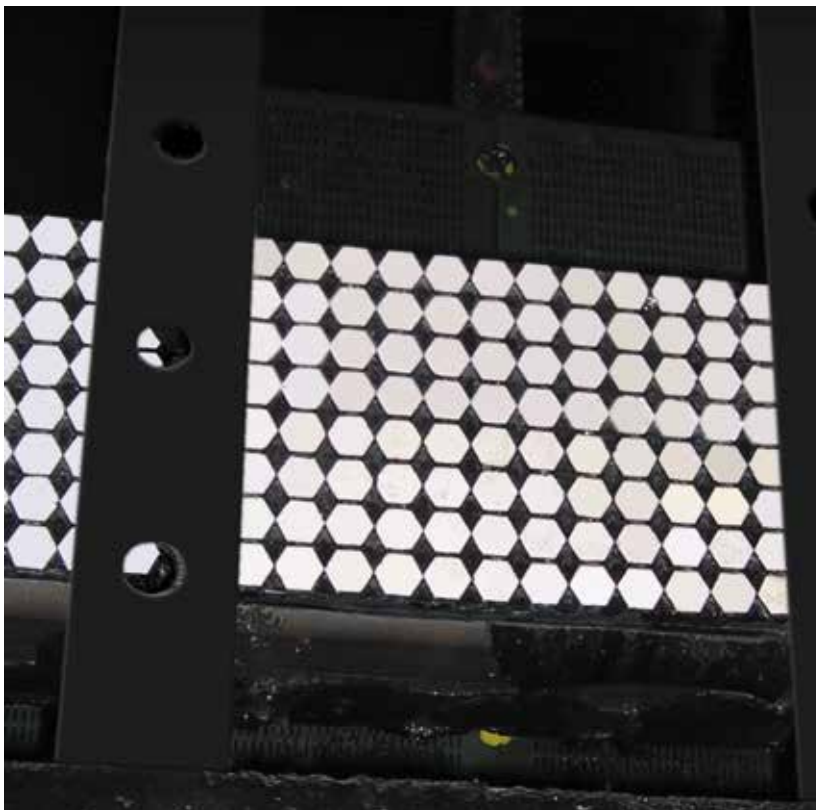

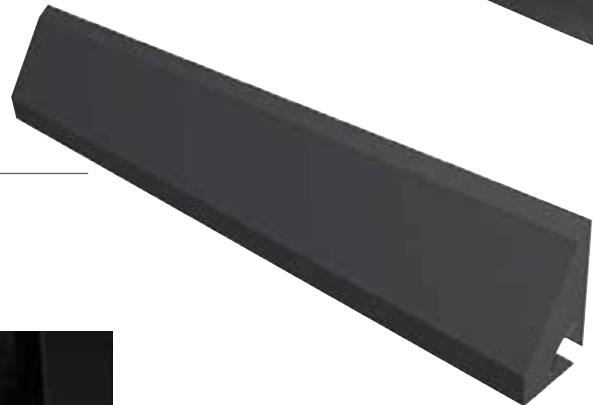

- Steel backed rubber feed box liners supplied either plain or drilled.
- Bolt holes sealed with rubber plugs.
- Bolted into position.

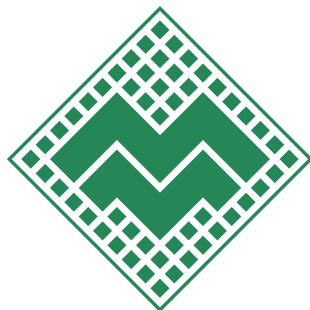

- Conventional steel backed rubber side liners.
- Supplied plain or drilled to suit your side plates.
- Bolted into position.

- Triangular rubber side clamping bars.
- Supplied with T-bolt and angled washer.

Ceramic and rubber composite RubHex curtains can be supplied to glue onto the screen cross-members to protect the beams from abrasion by particles passing through the screen apertures.
